

## ANZHFR v9.1 – Summary of Major Changes

- The changes to the ANZHFR Data Dictionary v8.1 will apply to patients admitted from 1 January 2017
- All data variables are identified in v9.1 by a unique ID#

Version	Variable #	Description of Change	Previous Value	New Value
9.1	2.12	New variable: Pain Assessment		1 Documented assessment of pain within 30 minutes of ED presentation 2 Documented assessment of pain greater than 30 minutes of ED presentation 3 Pain assessment not documented or not done 9 Not known
9.1	2.13	New variable: Pain Management		1 Analgesia given within 30 minutes of ED presentation 2 Analgesia given more than 30 minutes after ED presentation 3 Analgesia provided by paramedics 4 Analgesia not required 9 Not known
9.1	3.02	New variable: Preoperative Cognitive Assessment		1 Cognition assessed using validated tool and recorded 2 Cognition not assessed 9 Not known
9.1	3.04	Retired variable: Preoperative AMTS		Removed
9.1	3.05	Coding frame options changed: Preoperative Cognitive Status	1 Normal cognition 2 Impaired cognition or known dementia 9 Not known	1 Normal cognition 2 Impaired cognition or known dementia 8 Not assessed 9 Not known

<b>9.1</b>	<b>4.03</b>	Coding frame options changed: Surgery Delay	1 No delay, surgery completed <48 hours 2 Yes, delay due to patient deemed medically unfit 3 Yes, delay due to issues with anticoagulation 4 Yes, delay due to theatre availability 5 Yes, delay due to surgeon availability 7 Other type of delay 9 Not known	1 No delay, surgery completed <48 hours 2 Yes, delay due to patient deemed medically unfit 3 Yes, delay due to issues with anticoagulation 4 Yes, delay due to theatre availability 5 Yes, delay due to surgeon availability 6 Yes, delay due to delayed diagnosis of hip fracture 7 Other type of delay 9 Not known
<b>9.1</b>	<b>4.05</b>	Coding frame options changed: Type of Anaesthesia	1 General anaesthesia 5 Spinal / regional anaesthesia 97 Other 99 Not known	1 General anaesthesia 5 Spinal / regional anaesthesia 6 General and spinal/regional anaesthesia 97 Other 99 Not known
<b>9.1</b>	<b>6.08</b>	Coding frame options changed: Reoperation Within 30 day Follow-up	0 No reoperation at 30 days post discharge 1 Reduction of dislocated prosthesis 2 Washout or debridement 3 Implant removal 4 Revision of internal fixation 5 Conversion to hemiarthroplasty 6 Conversion to total hip replacement 7 Girdlestone excision arthroplasty 8 Periprosthetic fracture 98 Not relevant 99 Not known	0 No reoperation at 30 days post surgery 1 Reduction of dislocated prosthesis 2 Washout or debridement 3 Implant removal 4 Revision of internal fixation 5 Conversion to hemiarthroplasty 6 Conversion to total hip replacement 7 Excision arthroplasty 9 Revision arthroplasty 99 Not known

<b>9.1</b>	<b>7.08</b>	Coding frame options changed: Reoperation Within 120 day Follow-up	0 No reoperation at 120 days post discharge 1 Reduction of dislocated prosthesis 2 Washout or debridement 3 Implant removal 4 Revision of internal fixation 5 Conversion to hemiarthroplasty 6 Conversion to total hip replacement 7 Girdlestone excision arthroplasty 8 Periprosthetic fracture 98 Not relevant 99 Not known	0 No reoperation at 120 days post surgery 1 Reduction of dislocated prosthesis 2 Washout or debridement 3 Implant removal 4 Revision of internal fixation 5 Conversion to hemiarthroplasty 6 Conversion to total hip replacement 7 Excision arthroplasty 9 Revision arthroplasty 99 Not known
<b>9.1</b>	<b>8.01 to 12.05</b>	New variables: Facility Level Audit
