Hospital:

First Name	Surname		Patient's postcode
Date of Birth	Gender		Ethnic Status
/	□ Male □ Female		□ European □ Māori □ Pacific Peoples □ Asian □ Middle Eastern/ Latin American/ African
Hospital Event Number	Contact telephone	number	☐ Other Ethnicity
			□ Not elsewhere included
National Health Index	Payment status		
	□ Public □ Priv	rate	
Admission via ED of operating hospital		If transferred from another ho	enital
Admission via ED of operating hospital		If transferred from another hospital	
☐ Yes☐ No, transferred from another hospital		Name of transferring hospital:	
☐ No, in-patient fall☐ Other/not known		ED/Hospital arrival date/time (transferring hospital)	//hrs
		(transferring nospitar) Record time using 24hr clock	
ED/Hospital Admission (operating hospital	al)	If an in-patient fracture (time t	using 24hr clock)
Admission// hrs		Date / time of diagnosis//hrs	
Departure	:hrs I time using 24hr clock		Record time using 24hr clock
Usual Place of Residence		Type of ward admitted to	
 □ Private residence including retirement village □ Residential care facility □ Other □ Not known 		 ☐ Hip fracture unit /Orthopaedic ward / preferred ward ☐ Outlying ward ☐ HDU / CCU / ICU ☐ Other / not known 	
Note: If holiday residence/respite care, document u	sual place of residence		Drooporative cognitive
Walking ability pre-admission		Preadmission cognitive statu	assessment
☐ Usually walks without walking aids ☐ Usually walks with a stick or crutch ☐ Usually walks with two aids or frame ☐ Usually uses a wheel chair/ bed bound ☐ Not known		□ Normal cognition □ Impaired cognition or known dementia □ Not known or recorded	 □ Cognition not assessed □ Cognition assessed and normal □ Cognition assessed and impaired □ Not known Note: cognitive assessment requires use
Note: if a person has different levels of mobility on different surfaces then record the level of most assistance			of a validated tool
Pain Assessment		Pain Management	
 □ Documented assessment of pain within 30 minutes of ED presentation □ Documented assessment of pain greater than 30 minutes of ED presentation □ Pain assessment not documented or not done □ Not known or recorded 		 □ Analgesia given within 30 minutes of ED presentation □ Analgesia given more than 30 minutes after ED presentation □ Analgesia provided by paramedics □ Analgesia not required □ Not known 	
☐ Pain assessment not documented or not d☐ Not known or recorded		□ Analgesia not required	
☐ Pain assessment not documented or not d		□ Analgesia not required	
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission	one	□ Analgesia not required □ Not known	edics
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosum □ Not known	one	□ Analgesia not required □ Not known	edics
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosum	one	□ Analgesia not required □ Not known n or without calcium and/or vitami	n D)
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosum □ Not known Pre-operative medical assessment □ No assessment conducted □ Geriatrician / geriatric team □ Physician / physician team □ GP □ Specialist nurse	one ab or teriparatide (with	□ Analgesia not required □ Not known or without calcium and/or vitamin Side of fracture □ Left □ Right	n D)
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosum □ Not known Pre-operative medical assessment □ No assessment conducted □ Geriatrician / geriatric team □ Physician / physician team □ GP □ Specialist nurse □ Not known This is in addition to preoperative anaesthetic and of Atypical fracture	one ab or teriparatide (with	□ Analgesia not required □ Not known n or without calcium and/or vitamin Side of fracture □ Left □ Right If bilateral – complete a separate recomplete	n D)
□ Pain assessment not documented or not d □ Not known or recorded Bone protection medication at admission □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosum □ Not known Pre-operative medical assessment □ No assessment conducted □ Geriatrician / geriatric team □ Physician / physician team □ GP □ Specialist nurse □ Not known This is in addition to preoperative anaesthetic and of	one ab or teriparatide (with	□ Analgesia not required □ Not known n or without calcium and/or vitamin Side of fracture □ Left □ Right If bilateral – complete a separate rec	n D)

Did the patient undergo surgery	Date & time of primary surgery
□ Yes □ No	//hrs
Decree Wideless 40 hours	Record time using 24hr clock
Reason if delay > 48 hours No delay - surgery < 48 hrs Delayed due to patient deemed medically unfit Delayed due to issues with anticoagulation Delayed due to theatre availability Delayed due to surgeon availability Delayed due to delayed diagnosis of hip fracture Other type of delay (state reason) Not known Note: Delay is calculated from time of presentation to ED of the first hospital or diagnosis of hip fracture for those with a fracture from a in-	Anaesthesia ☐ General anaesthetic ☐ Spinal / regional anaesthesia ☐ General and spinal/regional anaesthesia ☐ Other – state ☐ Not known
patient fall	
Analgesia (nerve block) Nerve block administered preoperative (before arriving in OT) Nerve block administered in OT Both Neither Not known	Consultant present during surgery ☐ Yes ☐ No ☐ Not known
Operation Performed	ASA Grade
Cannulated screws (e.g. multiple screws) Sliding hip screw Intramedullary nail – short Intramedullary nail – long Hemiarthroplasty – stem cemented Hemiarthroplasty – stem uncemented Total hip replacement – stem cemented Total hip replacement – stem uncemented Other Not known	□ 1 □ 2 □ 3 □ 4 □ 5 □ unknown
Postoperative weight bearing status	First day mobilisation
☐ Unrestricted weight bearing☐ Restricted / non weight bearing☐ Not known	 □ Patient out of bed and given opportunity to start mobilising day 1 post surgery □ Patient not given opportunity to start mobilising day 1 post surgery □ Not known
New Pressure Injury of the skin	Delirium assessment
□ No □ Yes □ Not known Note: Grade 2 + above during acute admission	 □ Not assessed □ Assessed and not identified □ Assessed and identified □ Not known Note: assessment of delirium requires use of a validated tool
Clinical malnutrition assessment	First day walking
□ Not done□ Malnourished□ Not malnourished□ Not known	□ No □ Yes □ Not known
Assessed by Geriatrician in acute phase of care	Date initially assessed by Geriatrician
□ No □ Yes □ No geriatric medicine service available □ Not known	/
Specialist falls assessment	Bone protection medication at discharge from operating hospital
 □ No □ Performed during admission □ Awaits falls clinic assessment □ Further intervention not appropriate □ Not relevant □ Not known 	 □ No bone protection medication □ Yes, calcium and/or vitamin D only □ Yes, bisphosphonate (oral or IV) denosumab or teriparatide (with or without calcium and/or vitamin D) □ Not known

Discharge

Date of discharge from acute / orthopaedic ward	Discharge destination from acute / orthopaedic ward	
//	□ Private residence including retirement village □ Residential care facility □ Rehabilitation unit public □ Rehabilitation unit private □ Other hospital / ward / speciality department □ Deceased □ Short term care in residential care facility (New Zealand only) □ Other □ Unknown	
Date of final discharge from hospital if known	Discharge destination from hospital health system if known	
/	 □ Private residence (including retirement village) □ Residential aged care facility □ Deceased □ Other □ Not known 	

Follow Up 120 days

	120 days
Follow up date	//
Alive at 120 days	☐ Yes Confirm date of final discharge from hospital system//
Residential status	 □ Private residence (including unit in retirement village) □ Residential aged care facility □ Rehabilitation unit - public □ Rehabilitation unit - private □ Other hospital / ward / speciality department □ Deceased □ Other □ Not known
Walking ability	□ Usually walks without walking aids □ Usually walks with a stick or crutch □ Usually walks with two aids or frame □ Usually uses a wheel chair/ bed bound □ Not known
Bone protection	 □ No bone protection medication □ Yes - Calcium and/or vitamin D only □ Yes - Bisphosphonate (oral or IV) denosumab or teriparatide (with or without calcium and/or vitamin D) □ Not known
Re-operation within 120 days	□ No reoperation □ Reduction of dislocated prosthesis □ Washout or debridement □ Implant removal □ Revision of internal fixation □ Conversion to Hemiarthroplasty □ Conversion to THR □ Excision arthroplasty □ Revision arthroplasty □ Not relevant □ Not known
