

ANZHFR

Australian & New Zealand Hip Fracture Registry

ABOUT THE ANZHFR

The ANZHFR uses data to improve hip fracture care. The information below has been developed by the ANZHFR for patients, families and friends.

Use the camera on your smart phone to scan the QR codes for information about a broken hip and its treatment.

About hip fractures

Managing pain from a hip fracture

Thinking and memory

Surgery for a hip fracture

Walking after surgery

Reducing the risk of broken bones

Hip fracture data

Patient Care Guide
